

Exploring Layer 2 Network Security In Virtualized Environments – DerbyCon 4.0

I gave a talk this past weekend on part of my Ph.D. dissertation research at the [DerbyCon 4.0 “Family Rootz”](#) Computer Security conference in Louisville, KY. Take a look at the following video to view the talk in its entirety. The rest of the conference videos are available [here](#).

Masters – Fall 2011 Semester Books

Just picked up my books for this coming semester. Found pretty good deals on them at Amazon.

CS510 Programming Languages	CS532 Cryptography & Data Security	CS541 Database Systems	CS548 Swarm Intelligence
